EXECUTIVE SUMMARY

Senate Bill 1038 (Thompson, Chapter 1043, Statutes 1998) expressed legislative intent that regional centers and their families have access to mental health services that are appropriate to meet their needs. Among other provisions, this bill required in Welfare and Institutions (W&I) Code, Section 4696.1, (f) (1)(2)(3) that, by May 15 of each year, the Department of Developmental Services (Department or DDS) provide all of the following information to the Legislature:

1. The status of the memoranda of understanding developed jointly by each regional center and the county mental health agency and identify any barriers to meeting the outcomes specified in this section.
2. The availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.
3. A description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and whether it is physically accessible.

This report provides the information specified above. All regional centers and local mental health agencies have entered into memoranda of understanding. The report notes where progress has been made in the development of innovative resources, and how the collaborative effort between the Departments of Mental Health and Developmental Services has been strengthened, as evidenced by co-sponsoring the Mental Health Task Force for Persons with Developmental Disabilities (MHTF). The current barriers include:

- Lack of psychiatric in-patient beds in some counties due to hospital closures.
- Lack of developmental disabilities' knowledge by mental health staff.

Summary of Memorandum of Understanding (MOU) Status Between County Mental Health Agencies and Regional Centers in California

Senate Bill 1038 (Thompson), Chapter 1043, Statutes 1998, requires that each regional center and county mental health agency develop an MOU to improve cooperative efforts regarding regional center consumers requiring mental health services. Currently, all 58 counties and 21 regional centers have at least one MOU. Each regional center and county mental health agency is responsible for maintaining and/or revising their MOU. Revisions occur on an ongoing basis.

The Department and other state agencies continue to provide facilitation between regional centers and county mental health agencies. Ongoing facilitation efforts include the following:

- Convening quarterly meetings of the mental health/developmental disabilities collaborative (collaborative) to develop strategies for successful community services for persons with a dual diagnosis (developmental disability and mental health diagnosis). The collaborative mission is to reduce barriers and build resources for persons who are dually diagnosed.
- Providing technical assistance as requested by the regional centers and/or county mental health agencies.
- Disseminating information regarding training for professionals in the fields of mental health and developmental disabilities.

As a result of these efforts, persons with developmental disabilities and mental health needs have access to innovative services and supports. In particular, greater access and coordination has been achieved between community mental health services and the regional centers.

Although these developments are promising, barriers continue to exist in providing services and supports in the community. Current barriers include:

- Lack of psychiatric in-patient beds in many counties due to hospital closures.
- Lack of developmental disabilities' knowledge by mental health staff.

DDS continues to take action to address these barriers and improve services for individuals with developmental disabilities and mental illness. These accomplishments include activities using moneys received from the Mental Health Services Act (MHSA), such as the following:

- In 2010, DDS sponsored various innovative training projects for consumers, families, direct service providers, clinicians, and other professionals. These training projects were convened by six regional centers - Golden Gate, San Andreas, Harbor, San Diego, Westside, and San Gabriel/Pomona. Topics

included early intervention and treatment, Regional Planning Summits, best practices, cross cultural mental health treatment, and family issues across the life span for individuals with developmental disabilities and mental illness.

- DDS disseminated the MHSA Request for Application to regional centers and their community partners for Fiscal Years (FY) 2011-12 through 2013-14. Projects will address critical areas, including consumers at risk for multiple in-patient hospitalization, accessing the need for in-patient diversion programs, crisis intervention, aftercare treatment options, and promoting effective and long-term interagency collaboration. DDS announced project awards in July 2011.
- In fall 2010, DDS launched the mental health webpage, featuring activities of the regional center MHSA projects. Training and support materials are available at http://www.dds.ca.gov/HealthDevelopment/MHSA_TrngRegProject.cfm.

Mobile Crisis Intervention Services and Emergency Housing Options of the Regional Centers

W&I Code Section 4648(a) (10) states, "In order to achieve the stated objectives of a consumer's individual program plan, the regional center shall conduct activities including, but not limited to, all of the following:

Emergency and crisis intervention services, including, but not limited to, mental health services and behavior modification services, may be provided, as needed, to maintain persons with developmental disabilities in the living arrangement of their own choice. Crisis services shall first be provided without disrupting a person's living arrangement. If crisis intervention services are unsuccessful, emergency housing shall be available in the person's home community. If relocation cannot be avoided, every effort shall be made to return the person to his or her living arrangement of choice, with all necessary supports, as soon as possible".

Mobile Crisis Intervention Services Section provides information on the availability of mobile crisis intervention services, including generic services, by regional center catchment area, including the names of vendors and rates paid.

Funded Emergency Housing Options Section provides a description of each regional center's funded emergency housing options, including the names and types of vendors, the number of beds and rates, including, but not limited to, crisis emergency group homes, crisis beds in a regular group home, crisis foster homes, motel or hotel or psychiatric facility beds, and whether each emergency housing option serves minors or adults and is physically accessible. All regional centers have staff on call 24 hours per day to provide guidance in crisis situations.

Mobile Crisis Intervention Services

Vendor Name	Generic Service	Rate Paid
Alta California Regional Center		
Turning Point**	No	\$2,451/mo. for wrap, partial wrap \$1,225.51, quarter wrap \$612.76, \$171.38 for med management
Sacramento Co. Mental Health	Yes	Medi-Cal/MediCare
Placer Co. Mental Health	Yes	Medi-Cal/MediCare
Yolo Co. Mental Health	Yes	Medi-Cal/MediCare
CBEM, LLC*	No	\$135,440/mo./ 1600 hours
<p>ACRC has supervisors and staff on call for 24 hours per day to provide assistance with crisis situations. *By way of background, CBEM, LLC – Specialized Critical Intervention Services is a resource that was developed in response to an unmet service need in both the ACRC and GGRC catchment areas. These centers report having been plagued by a lack of qualified personnel and services to meet the needs of their consumers in crisis situations.</p> <p>Each regional center informed DDS that their contract with this provider includes a detailed set of deliverables and a negotiated rate based on the vendor’s cost statement. The level of education and training and experience of the CBEM, LLC staff is reportedly a factor in their rate. This resource is available 24/7. CBEM, LLC has staff that sign and speak a variety of languages to serve the respective communities/consumer populations of these centers. The contracts for this service specify a minimum number of monthly hours (800(ACRC)/700(GGRC)) of services to be provided and each center reports that delivered hours of service are carefully monitored and the center is able to adjust the rate, if necessary. Both GGRC and ACRC report that the hours of delivered service exceed the base amount specified in their contract.</p> <p>** Turning Point was willing to modify their program design and service delivery to break it down into more levels of care to better meet the needs of the clients. Many clients do not need a full wraparound service or may be able to step down from full wraparound to a lower level of care.</p>
