

### Supported Living Services Standardized Assessment Questionnaire

Per WIC § 4689(p)(1), this questionnaire is designed to ensure that individuals in or entering supported living arrangements receive the appropriate amount and type of supports to meet the person’s choice and needs as determined by the IPP team.

The IPP team is to complete the questionnaire at the time of development, review, or modification of an individual’s IPP. The questionnaire, in conjunction with the service provider’s comprehensive assessment, will assist the team in determining if the services recommended or provided are necessary, that generic resources are utilized to the fullest extent possible, and the most cost effective methods of service provision are utilized. If this process results in a reduction of services, the regional center is to inform the individual of the reason for the reduction and provide the individual a written notice of fair hearing rights pursuant to WIC § 4701.
